

# Future of Cataloging

RDA and other innovations

pt.1

# Why RDA?

- First we have to ask
  - Who are we cataloging for?
  - For what environment are we cataloging?
  - How can we streamline cataloging?
- What we catalog has expanded
  - Not just books, but videos, audio music, audiobooks, text and music for i-pods, etc.
  - Re-workings of works into play-scripts, online resource, adaptations for children, translations, films, etc.
  - Variations have new contributors or agencies but all are related to the original other
  - AACR2 mixed content and carrier
- Relationships for all these materials need to be made clear to the user

# Changes

- CONSER & GPO Abridged
  - <http://www.loc.gov/catdir/cpsoc/conser.html>
  - [http://www.access.gpo.gov/su\\_docs/fdlp/cip/cataloging-revision-ap07.pdf](http://www.access.gpo.gov/su_docs/fdlp/cip/cataloging-revision-ap07.pdf)
- New OPAC views on top of current ILS
- New open source systems
- Cataloging more than just books
- Cataloging in a worldwide environment

# CONSER and GPO Abridged

- CONSER standard and the GPO Abridged support the idea that primarily all you need is enough description to identify and a lot of valid access points
- What can we eliminate and still create a functioning record?
- For example you don't need a 4XX, just use the valid 830

# New OPACS uses

- Bibliographic record link to SFX
- From a database via SFX or WorldCat to local catalog
- From courseware
- To book covers, to Google books, to Amazon
- WorldCat Identities

# WorldCat Identities

- **WorldCat data in a different light**
- An Identities profile takes the holdings and metadata contributed by cataloging member libraries, and uniquely re-uses them to create a reference page with broad appeal to Web users. Information available in an Identities profile relative to the profilee includes:
  - An overview with the total number of published titles, languages in which those titles are published, story genres, and roles the person has assumed (author, performer, narrator, etc.)
  - A timeline, displaying by year the number of publications either created by or about the profilee
  - A list of titles most owned by WorldCat libraries, with brief descriptions and selected cover art
  - A "tag cloud" of associated library subject headings
  - Links to other identities commonly associated with the current profilee
  - Uses FAST subjects in the clouds

About the Author(s)

[Harrison Ford](#), [Karen Allen](#), [Paul Freeman](#), [Ronald Lacey](#), [John Rhys-Davies](#), [Denholm Elliott](#), [George Lucas](#), [Philip Kaufman](#), [Steven Spielberg](#)

Links to WorldCat Identities are now available beneath the **Details** tab of WorldCat.org records in the "About the Authors" section.

**WorldCat Identities** Beta

# Are these better?

- Are these just more attractive or better?
  - If authorities aren't included, subject access is often not very relevant to what the user really wanted
  - You don't see the whole bibliographic record
  - Terminology not always consistent or clear, e.g. Creator on one screen and Author on another
