

WELCOME TO BACK TO THE FUTURE!!!!

A swinging good time should be had by all as we experience the 2001 Conference theme to the fullest! Nine authors, the majority from North Dakota with award-winning books some published internationally. This has been a request of many of our members and "your wish was my command".

As you preview the program to decide if you will attend or not, please remember that Elvis has been found and will be at the opening social Wednesday evening to help those of us of "a certain vintage" relive those wonderful years of our youth. Please feel free to dress the 50's, 60's and yes the 70's for the younger members and have a fun-filled conference. Remember those white blouses/shirts and blue jeans; poodle skirts; saddle shoes/white bucks; neck scarves; etc . . .

*Remember, we will all add to our intelligence as well, as the presenters have much to offer us as they carry out the NDLA 2001 Conference theme *The Williston* local committee members are working diligently to make all a success. The tours Wednesday afternoon will certainly take us back in time as both Ft. Buford and Ft. Union are filled with history.*

Genealogy is well represented on the program; this was another request of our membership. Just as we search our past we must also be aware of the future which we will explore in the area of technology during the third general session.

Hope to see you in September,

*La Dean Moen
2001 NDLA Conference Chair*
