

Technical Services Roundtable - 14

September 12, 2005

Three candidates came forward to run for office in this year's election, one for chair-elect and two for secretary.

The Technical Services Roundtable is sponsoring two programs for the 2005 NDLA Conference: New Features of the Connexion Client, and OCLC Resource Sharing Interface. Both programs will be presented by the MINITEX staff.

The minutes of the Technical Services Roundtable from 1990-1998 were transferred to the NDLA archives in June.

This spring I was appointed chair of an ad hoc committee on membership, marketing and promotion of NDLA. This committee submitted a lengthy list of recommendations to the Executive Board in June, and this August submitted a draft survey to the board.

Currently, the committee is also working on an input form for submitting job announcements to the NDLA website.

Respectfully submitted,

Liz Mason
Chair, Technical Services Roundtable
