

Government Documents Roundtable (#9)  
Quarterly Report, December 2, 2005  
Naomi Frantes, Chair

There was discussion during Sept. 22, 2005, meeting regarding a notable documents display at the 2006 NDLA conference.

Marilyn Johnson asked for assistance in completing a historical listing of appointed officials. Naomi Frantes volunteered.

Kathy Thomas volunteered to compile a list of research centers, etc., at the universities and colleges that can be used as a resource for specialists and experts in the state.

Notable documents were voted for at the 2005 conference. The top 3 documents were:

1<sup>st</sup> place: Prehistoric life of North Dakota (map) by John W. Hoganson and Brett Woodward. Published by North Dakota Geological Survey, 2005.

2<sup>nd</sup> place: Butterfly gardening in North Dakota -- Janet J. Knodel, Gerald M. Fauske, Ronald C. Smith. NDSU Extension Service, North Dakota State University.

3<sup>rd</sup> place: North Dakota Lewis & Clark audio adventure (CD) -- produced by North Dakota Tourism Division with Clay S. Jenkinson.

During this quarter, Kathy Thomas and Marilyn Johnson sent a memo to all government documents librarians in the state requesting they submit photographs of library staff that work with government documents. Photos are due to Kathy Thomas in January 2006, and will be compiled into a special government documents poster for 2006 conference.

Naomi submitted GODORT's 2006 budget request.
