

Health Sciences Information Section - #10

December 2, 2005

Post-NDLA Conference:

Minutes of our sectional annual conference meeting will be distributed to the members with this report. Among other topics the need for standing committee members was reviewed. Individuals will be asked to serve on the Bylaws Committee after the holidays.

Post-Midwest Chapter Conference:

Section members involved with the Midwest Chapter Conference have submitted their final conference committee reports. One long-awaited bill is anticipated shortly and we will be able to officially close the books on the conference before the end of the year. The conference did earn a profit and final figures will be reported at our next NDLA Board Meeting.

Spring Meeting:

Planning for our spring meeting is beginning. Location, date, and programming will be finalized after the holidays.
