

Professional Development Committee (#21)
Report to NDLA Executive Board
December 2, 2005

No grant applications have been received.

Information on the grants available has been updated and sent to the Web site. The name of the link has been changed from "Grants" to "Professional Development" in order to attract attention more precisely.

Updated information was also submitted to The Good Stuff for the December issue.

Reimbursement to Beth Postema for the Ghost Ranch Leadership Institute was authorized. Beth has also requested that since she is the Chair for the next annual conference, that she not be required to put on a program for that conference. She has in mind a workshop on Leadership skills for the following conference and feels that this will not necessarily interfere with her Presidential duties in that year. A request that the Board consider this has been put on the agenda for the December board meeting. Because of this request, the contract has not yet been signed.

Karen Chobot
Committee Chair
