

NDLA Technical Services Roundtable (#14)
Quarterly Report, June 9, 2006
Laurie McHenry, Chair

I became aware that the Technical Services Roundtable is an affiliate group of the Council of Regional Groups (CRG) of the American Library Association's Association for Library Collections and Technical Services (ALCTS). I removed Liz Mason's name and information and gave them my name and information. This will be an agenda item for discussion in the fall, with possible recommendations to change the Technical Services Roundtable Bylaws and Policies Handbook to either remove this charge entirely or change the liaison from Secretary to Chair.

Programs for the fall conference were discussed on the listserv. Two programs were decided on. One will be presented by Rachel White on Disaster Preparedness; the other program will be presented by Shelby Harken and will focus on ALEPH : Triggers, Services and Statistics.

Much time was spent looking for people to run for office for 2006. Naomi Frantes and Michele Azar have agreed to run for Chair-Elect and Kelly Hell and Stacey Goldade have agreed to run for secretary. The candidate forms from Donna Maston were emailed to all of them with instructions. The candidates names were emailed to Donna Maston, Nominations & Elections Committee.
