

**Legislative Committee Report-18
September 20, 2006**

Issues regarding State Aid will be important for the public library community in the upcoming legislative session. Background information was requested from the State Library on this issue and disseminated to our board members here in Fargo to aid with lobbying efforts.

President-Elect Postema has contacted Kelly Steckler and she has agreed to take over my office of legislative committee chair following the NDLA conference. I would like to extend my thanks to Kelly for agreeing to take on this role during what promises to be a very interesting legislative year for North Dakota libraries.
