

NDLA Web Committee Report - # 27

December 8, 2006

I investigated and priced commercial web hosting services at the request of the NDLA Executive Board. The plan is to move the NDLA web site from its current location on a state owned web server to a commercial server. I'd like to move the site to NetworkSolutions, the company NDLA is using for its domain name registration. Information on the company's web hosting packages is available at: <http://www.networksolutions.com/web-hosting/index.jsp>.

Submitted 2007 budget request.

The following updates and additions were made to the NDLA web site between September 13th, 2006 and December 8th, 2006.

Added:

- Executive Board meeting reports for September 20, 2006 and the web page used to link to the reports
- Four conference forms: an instructor/speaker expense form, a refund request form, a personal reimbursement form, and a vendor reimbursement form
- The cookbook order form, promotional information, and sample pages
- The Permabound order form for the Flicker Tale award nominees

Updated:

- The HSIS policies handbook
- The Executive Board minutes page
- The centennial conference page
- The 2006-2007 Flicker Tale Award ballot
- The Flicker Tale Award nominees page
- The NDLA home page
