

## NDLA Membership Directories

A database of North Dakota Library Association members is maintained by the Membership Chair. Web-based membership directories are produced at intervals throughout the year.

Information in any NDLA Membership Directory and the membership database is for sole use by members of the Association and must not be sold or given to persons outside the Association.

In a situation in which a library or another library association wishes to obtain member information to publicize a conference, workshop, or other professional development or continuing education opportunity to NDLA members, an exception may be made by the Membership Chair in consultation with the President.
