

2 – President-Elect Report
May, 2008
Phyllis Bratton

Planning for the conference was the top concern. Some highlights:

- The CE track for the School Library Media Specialists is now in place.
- Lolly Gasaway is the second pre-conference speaker; she will be speaking on copyright in a digital environment and will also be doing a session on copyright for school librarians.
- There are still 6 out of 33 possible sessions, although 3 of these have tentative scheduling.
- I have been urging speakers to make their travel arrangements now to cut down on costs.
- Mike Safratowich has been clarifying the reimbursement and payment for speakers policies.

Planning continues!

Respectfully submitted,
Phyllis Bratton
