

NDLA Past President's Report
September 2008

Most of my work on behalf of NDLA in the last quarter has been in the area of vendor registration. At the time of writing this, we have 18 confirmed vendors and 4 more who state that they are coming through emails, but I have yet to receive registration forms or payment. In addition to this there will also be display tables offered for MPLA, the Flickertale Award, and GODORT (Notable Document voting). If there are other free, courtesy display tables that other allied organizations are expecting, please let me know at once. We do have some first time vendors, which is encouraging. Also, the UND School of Medicine/Harley French Library of the Health Sciences is using NDLA and their exhibitor booth as the setting for their press conference about the launch of the "Go Local ND" project.
